NOTES

USSR-CUBA: The Soviet naval group that has been visiting Cuba left Havana on 9 November following a ten-day port call. The two guided missile ships, two diesel submarines, and tanker were located off the western tip of Cuba this morning and based on past practice they will operate for a short time in the Gulf of Mexico and south of Cuba. The duration of their training operations is not clear but the task group may make a call at Cienfuegos before leaving the Caribbean.
